

#### Animal Mimicry.

Observers of nature are frequently struck with the singular resemblances of insects to leaves, dried sticks and so forth, and these likenesses are supposed to have grown out of the necessity of protection against or concealment from enemies. An interesting example of this kind of resemblance was recently cited by a government naturalist, who exhibited a spider found inhabiting some rocks near Cannes, on which were also fastened the cases of a species of moth. When at rest the spider exhibited almost precisely the same form and color as the moth cases surrounding it. —Exchange.

#### Heavy Loss Caused by Fungi.

The annual loss caused by forest fires is enormous, but it is no greater than that attributable to fungi, which rot mine timbers, bridge timbers, telegraph poles and other structures of wood, necessitating their replacement. The "life" of the average railway tie is seven and a half years; if fungi would let it alone it would last twice that long.

#### HOME DEMONSTRATION AGENT NOTES

Many of the Beaver county teachers are boosting club work and calls for enrollment cards are coming in all of the time. We are glad to see this interest shown and expect to accomplish a great deal next year with their cooperation. Don't forget, however, that we must have reports on the work that was done this year. If you have had a good club in your school insist that we get the reports. It will be impossible for us to have a club center in every school and we will determine our club centers largely by the work and reports for this year. Please send in your reports, boys and girls, before November 25th. Whether your work has been a success or not, let us hear about it.

Mrs. Clyde Mahaffy was hostess to the Social Hour club last Tuesday. Four members were present. Her rooms decorated in black and yellow and the color scheme included the napkins. In every way we were reminded that it was Hallowe'en. The evening was spent pleasantly in social chats and dominoes. The hostess played the accompaniment to "The Last Rose of Summer," and all joined in singing the beautiful words so well suited to Hallowe'en time. Refreshments of pressed chicken sandwiches, salad, coffee and grape juice were served.

There were ghosts, darkies, Indians, and fat people, just most any kind. The hostess introduced the guests to her Fortune Teller, who told their fortunes. They were asked to unmask and house games were played. Delicious refreshments of oyster soup and cocoa were served. The decorations were beautiful. At a late hour the guests departed each voting Mrs. Nelson a royal entertainer.

Mrs. Joe Michel gave a party November 6th, it being Emelia's birthday. About twenty-four were present. Each guest brought a present. Mr. Michel presented her with a beautiful pair of earrings. Amusing house games were played. Delicious refreshments were served consisting of sandwiches, pickles, cake, jello, coffee and cocoa. None can excel Mrs. Michel in entertaining. The birthday cake was lighted with sixteen candles which plainly told that Emelia was "Sweet Sixteen." She is a most charming young girl. After serving, mints were passed and each guest was presented with a flower the favor of Emelia. At a late hour the guests departed each voting Mrs. Michel a royal entertainer and wishing Emelia many more happy birthdays. LASSIE.
